Subject :Software Developer

Dear Sir or Madam,

Having learned about your nees for a Software Developer,this job advert interst me in this position,and believe that my formation,my skills and personallty are more than appropriate for the position.

I have finish an IT degree (2year) and my training allowed me to learn specific skills in programmation especially in Java,Sql ,and Python,to work on various Operating System like Windows Linux Mac OS.and some knowledge in conception,law , management and to increase my skills in communication to integrate more easily into a team.I m also someone who is passionate by programming the idea to create something who will have a real impact on people life is something precious to me,i love travel discover new country other ways to do things ,and also sports like football and tennis who helped me to work inteam

I have also some applicable experience because of my training,during this training the realization of project were usual and the majority of those projects were in team.like the JsonToHtml project who offer me the opportunity to learn more about the conception of a project and the management of a team and the capital importance of communication in team but also my autonmy in my work.The only one individual project was to create a website thisproject allowed me to create without constraint and to learn by myself langages who wasn't necessary for this project like PHP because of my curiosity.

I look forward to meeting you.I will contact you to confirm that you received my application and to answer to any questions you may have .  
Thank you in advance for your consideration.

Sincerly

Bastien DIDIER
